

40th IEEE International Conference on Consumer Electronics (ICCE 2022)

“Digital you - Always”

7-9 January 2022 // Hybrid Conference (Las Vegas, NV, USA and Virtual Online)

CALL FOR PAPERS AND PROPOSALS

The 40th IEEE International Conference on Consumer Electronics (ICCE 2022) is the IEEE Consumer Technology Society's annual flagship conference that will take place in conjunction with CES. ICCE 2022 will bring together top professionals from industry, government, and academia from around the world. Consistent with our Society's scheduled name change in 2022 from Consumer Electronics to Consumer Technology, we have adopted **“Digital you - Always”** as the conference theme. The conference will provide networking opportunities for participants to share ideas, designs, and experiences on the state-of-the-art and future direction of consumer technologies. ICCE 2022 will feature a comprehensive high-quality technical & experiential program dealing with a mix of traditional and contemporary hot topics in paper presentations (lecture and interactive style), tutorials, industry forums, mixed panels and high-profile keynotes.

Publication in the Conference Proceedings and IEEE Xplore®, requires authors to register under ONLY the “Full” registration category. Authors with multiple papers must register each separately with the requisite fee. A select few paper authors with highest reviews may be invited to submit enhanced journal-quality papers to special issues of peer-reviewed journals (e.g. IEEE Transactions on Consumer Electronics and IEEE Consumer Electronics Magazine). For the details and updates, please visit the conference website.
