

## IEEE CTSoc CSH TC - 2023 Meeting #2

2023/09/21, 12:00AM - 1:30PM CEST

Dr. Alessandro Tonacci, CTSoc CSH TC Chair, welcomes all the participants to the 2st CSH TC meeting of the year 2023, and presents the agenda.

- **Role call of the 2nd CSH TC Meeting**
  - Dr. Tonacci compiles the list of participants. 7 members of the CSH are attending the event.
- **Report of the ICCE-Berlin: overall and CSH-specific**
  - Dr. Tonacci points out the results obtained in terms of participation, to ICCE-Berlin, highlighting the importance and role of the TCs in the overall structure of the CTSoc.
- **Role of the Technical Committees within the CTSoc**
  - Dr. Tonacci points out all the job performed by the CTSoc to make TCs attractive and highlights the importance of the webpage about Outcomes and Opportunities to stay updated on this. In addition, some TCs have created and are maintaining a LinkedIn page, and the CSH should make the same, for disseminating their activities and recruiting new members.
  - Dr. Tonacci points out also the open positions within the CSH TC (IEEE Societies/Councils Liaison, Technical Sister Societies Liaison + the three liaisons where actual officers were engaged into)
  - Dr. Tonacci also illustrates a new method for collecting the performance metrics already adopted by other TCs, like the CCN, reporting that the CSH will also start collecting performances in this way. Of course, all the roles within the TCs are voluntary, so it could be better to be inclusive and thankful to the members for their activities; however, engagement is necessary to keep the CTSoc active. The CTSoc will also start collecting performances to give recognitions and awards to Best Members.
- **Next Technical Talks (November 2023 slot)**
  - Dr. Tonacci reminds once again the need for arranging the talk in November slot within the Technical Talks, highlighting the success of the two first TTs involving, as speakers, 4 TCs, and once again launched the proposal to be a speaker in this event.
- **Open Discussion**

- Dr. Hossain, new member of the TC, points out his roles in other societies of the IEEE and in the journals of the CTSoC, so he was proposed by Dr. Tonacci as the officer for the IEEE Societies/Councils Liaison. Dr. Hossain kindly accepted to serve and was appointed in this new role. Dr. Tonacci and the other attendees congratulate with him and thank him for his commitment.
- Dr. Billeci points out, in the performances sheet, to ask also for possible contributions like Special Issues to share, conferences to participate and so forth. She also points out the importance of performance collection and maybe also the need to draw some rules to eventually consider the removal from TCs of the less active members.
- Dr. Tonacci also asks to Dr. Kumar, new member of the TC, to present himself and his research activities. Dr. Kumar accepts and outlines.
- **Closing remarks**
  - Dr. Tonacci closes the meeting highlighting the need for inviting new members and actively participating to the TC activities and to the CTSoC activities, at large, inviting everyone, as usual, to the next meeting, roughly in a 6-month time period.
